## Trainee's Feedback

*The Azure development track was well-structured and provided a good understanding of cloud platform good mix of theory and hands-on practice, which made learning enjoyable and effective. The guidance from experienced Azure professionals was particularly valuable in navigating the complexities of cloud development.*

*I am AWS Cloud Practitioner certified and have past AWS experience, this project helped me revisit and strengthen my understanding of familiar concepts. Immersing myself in this project allowed me to refresh my knowledge and skills in AWS services, significantly boosting my confidence. I'm thrilled to share that I recently passed the AWS Solutions Architect exam, confirming my proficiency and readiness to utilize AWS services effectively in future projects.*

*The transformative journey with the CloudPro program has been nothing short of enlightening. It's not just about acquiring knowledge; it's about cultivating expertise and mastering the art of DevOps. Through immersive practice projects and comprehensive exploration of AWS and DevOps services, I've not only expanded my skills but also discovered the true essence of innovation and efficiency in modern software development. Grateful for this invaluable experience!*
